

Walter Tinganelli, Ph.D

Summary

Walter Tinganelli is a biotechnologist with more than ten years of international research experience. Since January 2019, Walter is the Clinical Radiobiology Group Leader at the GSI, Germany.

Master of Science in Biotechnology at the University of Naples Federico II, Walter did his Ph.D. in Radiobiology at the Technical University of Darmstadt in Germany.

After his *Ph.D.*, Walter worked for two years as the International Open Laboratory Group Director at the National Institute of Radiological Sciences (NIRS) in Japan. Back in Europe, he worked as Principal Investigator of the Clinical Radiobiology Group at the Helmholtz Research Center for Heavy Ion (GSI) in Darmstadt, Germany and from November 2015 to December 2018, as Project Manager and Principal Investigator at the National Institute of Nuclear Physics, part of the National Institute of Nuclear Physics (INFN) in Trento, Italy.
