

# CALL FOR ABSTRACTS NOW OPEN !

## 15<sup>th</sup> IAEG 2026 Congress

Engineering Geology in a  
Rapidly Changing World

30 Oct – 6 Nov 2026 | Delft, The Netherlands

### THEMES

- |                                   |  |                          |
|-----------------------------------|--|--------------------------|
| 1. Innovation in ground modelling | 2. Low lying, coastal, soft soil countries | 3. Geohazards            |
| 4. Energy transition              | 5. Responsible use of the (sub)surface     | 6. Environmental eng.    |
| 7. Heritage preservation          | 8. Digital transition & AI revolution      | 9. Boosting eng. geology |

### Dear Colleagues and Friends of the International Association for Engineering Geology and the Environment,

We are pleased to open the call for abstracts for the IAEG 2026 Congress. The congress will focus on cutting-edge research on the fundamentals of engineering geology, showcase best practices in the domain, and demonstrate engineering geology's pivotal role in a world struggling with unprecedented challenges.

We will cover a comprehensive set of engineering geology topics, with two overarching themes: sustainable global development and climate change mitigation and adaptation.

**Please consult [www.IAEG2026.org](http://www.IAEG2026.org) for the details of the themes and submit your abstract before 15 May 2025.**

We are looking forward to your participation in IAEG 2026 and the collective efforts that will shape the future of engineering geology.

**The IAEG2026 congress organization team**

**Submit here!**

To

Members of all IAEG National groups

Members of Ingeokring & KIVI-  
Geotechniek

Members of the IAEG sister Associations:  
ISRM, ISSMGE, & IGS

Members of National Geological Surveys

Academics, practitioners, in the field of  
engineering geology and neighboring  
fields
