February 2023

Dear EAOPD member,

In 2023, the EAOPD is still growing! We are pleased to welcome 10 new members who joined us during this last year.

We are proud to share with you the preliminary program of our coming annual meeting, titled:

“Management of patients with TMD: when, why and how our treatments work”

The meeting will take place in **Stockholm, Sweden on September 1st and 2nd 2023**. We are most certain that the meeting program will engage you with its clinical relevance and scientific basis. Please *save the date* and make your arrangements as soon as possible. More information and registration for the meeting are available on our website <https://www.eaopd.org>.

Moreover, you will find attached the meeting minutes from the EAOPD General Assembly, which was held in Naples, during the 2022 annual meeting. The handouts from the meeting presentations can be found through the following link (for personal use only):
