

Because the Tapijn Brasserie is located over a large walking area in the middle of a park, the last part of your route can become annoying if you only enter "Tapijnkazerne 20" in your car navigation. Rather choose from one of the following parking locations.

Prins Bisschopsingel: If you drive to Maastricht via the motorway, you will probably arrive at Tapijn Brasserie via the "Kennedybrug". In that case, cross the first intersection with traffic lights at the end of the bridge and take the service road that runs parallel to the "Prins Bisschopsingel". We advise you to park your car there in the designated parking spaces on the service road. Paid parking spaces are available here for an unlimited period. The daily rate is €6.60 including possible service charges if you use a parking app like Yellowbrick or Parkmobile. The walking time to the Tapijn Brassie will be 1-2 minutes.

Sint Hubertuslaan: An alternative is parking at the "Sint Hubertuslaan". This can be done under similar conditions as at the "Prins Bisschopsingel". If you choose this option, turn right at the traffic lights at the end of the "Kennedybrug" and park on the left side of the road (park side). Paid parking spaces are available here for an unlimited period. The daily rate is €6.60 including possible service charges if you use a parking app like Yellowbrick or Parkmobile. The walking time to the Tapijn Brassie will be 2-3 minutes.

Car park Maastricht Stadspark 1: A third option is to park your car on the lot of "Maastricht Stadspark 1". To get here, take an earlier exit on the "Kennedybrug" just after you crossed the river Maas. Go straight ahead at the end of the exit and find the car park on your left. Paid parking spaces are available here for an unlimited time. The daily rate is also € 6.60. The walking time to the Tapijn Brasserie will be 7-8 minutes.
