Article 8 Liability/complaints/damage

In the event of damage, the student will be responsible for covering the repair costs. The UT understands that occasional damage can be unintentional. However, in all cases, the university expects the person responsible to take care of the associated costs. Until these costs are settled, the student may not be eligible to apply for residence at the UT log cabins. If damage occurs a second time, the student will unfortunately be refused access to the log cabins.

While accidents can happen, if damage does occur, it may need to be handled through insurance. It is the student's responsibility to pursue reimbursement through their insurance provider, as the UT is not involved in this process.
