

Development, Prototype, and Educational Use Disclaimer – Non-Commercial

The ESP32-based PCB, including all accompanying firmware and software, is provided strictly for **development, prototyping, evaluation, and educational purposes only**. The hardware and software are supplied “**as is**”, without any express or implied warranties of any kind.

The PCB and software are **not intended for commercial use, production deployment, or safety-critical applications**. No guarantees are given with respect to functionality, performance, reliability, accuracy, or suitability for any specific purpose.

The hardware has **not been certified** for compliance with **CE, FCC, EMC, or any other regulatory standards**, and no such compliance is implied. The recipient is solely responsible for ensuring compliance with any applicable laws, regulations, or standards if the PCB or software is used beyond its intended scope.

Use of the PCB and software in an **educational or instructional setting** (such as laboratories, courses, demonstrations, or student projects) is explicitly permitted, provided such use remains **non-commercial** in nature.

The supplier shall not be liable for any direct, indirect, incidental, or consequential damages arising from the use, misuse, or inability to use the PCB, firmware, or software, including but not limited to damage to equipment, loss of data, or loss of profits.

Acceptance of the offer constitutes acknowledgment and agreement to these conditions.
