

**Alessandro Chiarotto**

Alessandro Chiarotto is a senior researcher working at the Department of General Practice of the Erasmus University Medical Center (Rotterdam, the Netherlands). He has a background in physiotherapy and clinical epidemiology and, in 2018, he pursued a PhD at the VU University Amsterdam (The Netherlands) with a thesis entitled “A core outcome measurement set for low back pain”.

His research currently focuses on:

1. aetiology, diagnosis, prognosis and treatment of patients with musculoskeletal disorders, especially back and neck pain;
2. methodological research on patient-reported outcomes and the use of reporting guidelines.

He has > 70 peer-reviewed scientific journals, including high-ranking journals like: New England Journal of Medicine, British Medical Journal, Journal of Physiotherapy, Journal of Clinical Epidemiology, Pain, and British Journal of General Practice.

Alessandro is also an Editor for the Cochrane Pain, Palliative and Supportive Care (PaPaS) group.
