

Bert-Jan Souman

Bert-Jan Souman, EMFC, (Project)Director of PTCG Ltd. (Proton Therapy Center Groningen Ltd.). He is a business economist with a passion for healthcare. Bert-Jan is a UMCG employee for over 20 years, with an extensive experience in healthcare economics and has managed complex projects such as the development of the UMCG proton therapy center. In this particular project Bert-Jan was responsible for the design, financing and building of the proton center, being the managing director of PTCG Ltd. He did this according to the mantra: *on time, within budget and according to specifications*. In his presentation Bert-Jan will illustrate how UMCG and PTCG managed to be the first operational proton facility in The Netherlands.
