Program. The program consists of two parts, in which we first raise issues that participants deal with in paper rejections, and then we discuss these in a moderated panel discussion.

Part 1. We will start using a world café format, in which participants move around the room in groups of 10. They start at one of three whiteboards and ideate topics/issues/questions around the topic of that board, with one of us as moderator for the board. After 10 minutes everyone moves to the next whiteboard. At the next whiteboard, the moderator for that board summarizes the previously discussed topics and continues the discussion. After 30 minutes, all 3 groups of 10 will have discussed each whiteboard.

Part 2. This part is a moderated panel discussion. Whiteboard moderators take 2 minutes to summarize the main issues that came up at each whiteboard. These topics/questions are then brought into a panel discussion with the three guests. This is planned to take 30 minutes, with about 10 minutes per topic. After 30 minutes, the remaining time of the workshop (20 minutes) is used for questions and reflection from the audience.
