	Joachim Spangenberg	Sustainable Europe Research Institute SERI Germany	joachim.spangenberg@seri.de
	Inge Liekens	VITO	inge.liekens@vito.be

Abstract:

ESP Steering Committee Internal Session serves as an in-depth meeting of the members of the ESP Steering Committee (SC) present at the ESP Europe conference, with an online participation of members not joining the ESP Europe conference in Tartu. The aim of this session is to further develop some of the existing strategic discussions on SC functioning in the first half of its term, and on ESP governance. The new Task Force and Commission lead teams will have the opportunity to present their ideas, reach out to the other SC members for involvement and open discussion on steps forward to reach their objectives. Based on the experience gained, SC members from

other ESP regions will be invited to plan for their regional equivalents at ESP Regional Conferences, which may differ in form or in-person/ online participants.

Planned output / Deliverables:

An internal report for the SC and the EC.

II. SESSION PROGRAM

Date of session: Thursday, 10 June 2021

Time of session: 9:30 – 10:30
