

Forum XVII : International Forum for Back and Neck Pain Research in Primary Care 2021

11th - 13th November 2021 | global virtual conference

Forum XVI : International Back and Neck Pain Research Forum 2019

July 6th - 9th 2019 | Québec City, Canada

"Back to the Future."

<http://www.backandneckforum2019.com>

Forum XV : International Back and Neck Pain Research Forum 2017

September 12th - 15th 2017 | Oslo, Norway

"Back to Basics."

Forum XIV : International Back and Neck Pain Research Forum 2016

June 2016 | Buxton, UK

"How can we broaden and strengthen the influence and impact of our research? How do we ensure that we are doing research without walls?"

Forum XIII : International Back and Neck Pain Research Forum 2014

September 2014 | Campos do Jordão, Brazil

"Simplifying the complex or complicating the simple."

Forum XII : International Back and Neck Pain Research Forum 2012

October 2012 | Odense, Denmark

"What works for whom and why, under which circumstances, and at what cost?"

Forum XI : International Back and Neck Pain Research Forum 2011

March 2011 | Melbourne, Australia

"The imperative of evidence based policymaking – should back pain become a national health priority area?"

Forum X : International Back and Neck Pain Research Forum 2009

June 2009 | Boston, MA, USA

"What are the outcomes of LBP, and how do they inter-relate? What factors are related to outcomes? How can we improve outcomes? How can we translate research to practice?"

Forum IX : International Back and Neck Pain Research Forum 2007

October 2007 | Palma de Mallorca, Spain

"The contribution of evidence-based medicine and the unsavory influences within it."

Forum VIII : International Back and Neck Pain Research Forum 2006

June 2006 | Amsterdam, The Netherlands

"Methodological issues."

Forum VII : International Back and Neck Pain Research Forum 2004

October 2004 | Edmonton, Canada

"Is the back pain field moving forward?"¹

Forum VI : International Back and Neck Pain Research Forum 2003

May 2003 | Linköping, Sweden

"Health economy and the relevance of different methods used in different environments; the dilemma of non-specific disorders and the need for tools that improve classification and identification of more homogenous clinical subgroups."

Forum V : International Back and Neck Pain Research Forum 2002

May 2002 | Montréal, Canada

"Quality care in low back pain: How many does it take to tango?"

Forum IV : International Back and Neck Pain Research Forum 2000

May 2000 | Eilat, Israël

"Implementation and dissemination: Getting research into practice."

Forum III : International Back and Neck Pain Research Forum 1998

October 1998 | Manchester, UK

"Researching the prevention of chronicity : Population and primary care perspectives."

Forum II : International Back and Neck Pain Research Forum 1997

May 1997 | The Hague, The Netherlands

"Develop the agenda for research and point out research priorities."

Forum I : International Back and Neck Pain Research Forum 1995

October 1995 | Seattle, WA, USA

"State of knowledge and draft agenda for future research."
