

**Guidelines for abstract preparation for CASE REPORTS**  
**(EAOPD, version January 2022)**

**Title: (160 characters maximum, Write the entire title with boldface. Do not use abbreviations)**

Authors: (Give the first name, or initials, preceding the last name of every author and institutional appointments but omit degrees and titles. The person presenting the case report should have his/her name underlined. Add email address of the presenting author)

Abstract:

1. Patient's history: (report in details the medical and dental history of the patient)
2. Chief complaint of the patient: (report main reason that made the patient search for care)
3. Clinical findings: (report the findings of the clinical examination)
4. Diagnosis: (report the diagnosis)
5. Treatment goals: (report the goals of the treatment approach)
6. Treatment plan: (report in details the treatment plan)
7. Treatment outcome: (report the kind, duration, intensity, and outcome of the treatment) It is not acceptable to say that the results will be presented and/or discussed.
8. (Report the possible positive and negative therapeutic implications for similar cases)

Number of words in the abstract: (350 max)

NB1: Abstracts must be typed in English and single-spaced with 12-point, Times New Roman letter type in a word file.

NB2: Do not include illustrations. However, tables may be used.
