

# PhD Meeting on Pensions

We are pleased to announce that the annual PhD meeting on Pensions, an initiative of Maastricht University and Tilburg University, will again take place in 2021! In the afternoon of Tuesday 5 October 2021 we would like to welcome you to this meeting at Maastricht University.

## About the PhD Meeting on Pensions

Although initiated by Maastricht University and Tilburg University, this meeting seeks to bring together all PhD students, post-doctoral researchers and academic staff with a research focus on pensions and related topics. It has a multidisciplinary scope, welcoming researchers from all disciplines. The main objective is to stimulate the multidisciplinary research on pensions and the collaboration between the various disciplines. The PhD students will get the opportunity to expand their network, find collaborative opportunities, essay their research and exchange feedback.

The aim of the annual meeting is to bring together early career scholars on pensions and related topics. However, more experienced researchers as well as the supervisors are very much encouraged to join and to reflect on and stimulate the discussions.

## Programme: Save the Date

The preliminary programme of the afternoon will be as follows. A more detailed programme will follow later on. It is already possible to register for the PhD meeting through this [registration form](#). If registered, you will automatically receive more information later on.

Welcoming words  
Thematic introduction and discussion  
Intermezzo – lunch  
PhD presentations + feedback  
Networking drinks

## Join us on LinkedIn!

All PhD students and academic staff with a research focus on pensions are welcome to the PhD Meeting on Pensions. Therefore, it would be much appreciated if you spread the word to your fellow PhD students and colleagues. A digital environment on LinkedIn is created as platform to receive the latest updates on the PhD Meetings as well as to exchange relevant information and updates. You are invited to [join this community](#).
