If the fields above are not enough for all team members, then please use the below field to write the names, affiliations, email addresses, and the expertise of each additional co-proposer.

This form is to submit a TOPIC PROPOSAL for the CAAD Futures 2023 Call for Co-creation. The call regards co-creation of content for Working Sessions. The conference welcomes co-creation of content to be discussed and further developed at the conference, regarding "research urgencies" (emergent research priorities) relevant to the conference's theme. More information is available on the CAAD Futures 2023 website, please check it. By submitting this form, you agree this proposal can be handled as per the process described in the Call for Co-creation. As reminder, submissions are meant to provide the basis for a collective process. During this collective process initial submissions may merge, disappear, evolve. Also, it is important to realise authorship will be shared and ideas will progress collectively, depending on active participation. In this form, please do not submit confidential information or otherwise sensitive content. By submitting this form, you take responsibility its content can be openly shared and processed collectively.
