SIC Project Proposal Guidelines

- The project must as its aim have the improvement of student life at UM

- Participants must be enrolled at the UM for the duration of the Competition

- Participants must comply with the required deadlines

- Each idea submitted must:

  1. Be valuable for UM students as a whole, accessible to all UM students, and not benefiting only a single faculty;

  2. The main aim of the idea is to improve the student life at UM;

  3. Be feasible to realize and implement.

- Proposals shall include a (rough) overview of the expected implementing timeframe and a (rough) budgetary overview of how the project could be effectively implemented with the prize money.

- Past winning ideas/projects are in principle, allowed to re-enter the competition on the condition that it can be demonstrated that there is a new element to the project that requires implementation.
