

# Face2Phase<sup>3</sup>

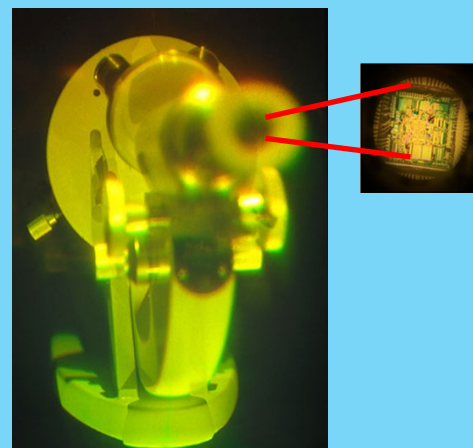

November 7 to 9, 2022  
X, TU Delft, The Netherlands

## CALL FOR PAPERS

The conference **Face2Phase 3<sup>rd</sup> edition** addresses imaging with phase information and covers topics such as lensless imaging, aberration retrieval, adaptive and active optics, ptychography, holography, tomography, phase retrieval and applications.

Distinguished invited speakers:

- **Prof. Carl Bender** *Washington University (USA)*
- **Prof. Olga Koroktva** *University of Miami (USA)*
- **Prof. Martin Booth** *University of Oxford (UK)*
- **Prof. Sylvain Gigan** *Laboratoire Kastler Brossel (FR)*
- **Prof. Gabriel Aeppli** *ETH Zurich (CH)*
- **Prof. Dick Willingale**, *University of Leicester (UK)*
- **Dr. Jos Benschop** *VU Amsterdam/ASML (NL)*
- **Prof. Ari Friberg** *University of Eastern Finland (F)*
- **Prof. Arie den Boef** *ASML (NL)*
- **Dr. Armand Koolen** *ASML (NL)*
- **Prof. Allard Mosk** *University Utrecht (NL)*
- **Prof. Wilem Vos** *University Twente (NL)*

After the conference, a **School of Physics will take place** co-organised by the SPIE Student Chapter of TU Delft and the EMPIR 20FUN02 PoLight project.

For registration, abstract submission and visa application visit our website: <https://www.face2phase.nl>

**Deadline for abstract submission: September 1<sup>st</sup>, 2022**
