

## C 2030 Mission

Take urgent action across society to put biodiversity on a path to recovery for the benefit of planet and people

### E. Implementation Support Mechanisms

#### Tools & Solutions

13. Mainstreaming Planning, Valuation, Regulations at all levels

14. Sustainable Production and Supply Chain

15. Sustainable Consumption and Responsible Choices

16. Biosafety (Biotechnology)

17. Incentives & Subsidies

18. Financial Resources for Education, Knowledge Transfer

19. Information including LK for effective management

20. Equitable Participation including IPLCs, Youth, Women

#### Reducing Threats

1. Land/Sea Plan, Retain, Restore

2. Land/Sea Protect, Conserve

3. Wild species management

4. Sustainable Harvesting

5. Invasive Species

6. Reduce pollutions from all sources

7. Climate Change & Disaster Risk

#### Meeting People Needs

8. Use for Food & Livelihood

9. Agriculture & Other Spaces

10. Air, Extreme events, Water

11. Health, Wellbeing, Cultures

12. Shared Benefits

F. Enabling Conditions

### G. Responsibility & Transparency

## Post-2020 Global Biodiversity Framework

### 2050 Goals

(a) Area and integrity of freshwater, marine and terrestrial ecosystems

(b) Species extinction and abundance

(c) Genetic diversity

(d) Nature provides

i) People nutrition

ii) Access to water

iii) Resilience from natural disasters

iv) Efforts to achieve target for Paris Agreement

(e) Benefits shared fairly and equitably

### 2050 Vision

Living in Harmony with Nature
